

## **NEWS FROM FHRA PLANNING AND ENVIRONMENT GROUP**

**April 2010**

### **Environment**

Spring at last seems to have come and the bulbs we planted last autumn are flowering at the front of the recreation ground and together with the work the Parish Council have done are making the area more attractive.

We have noticed that there is a build up of litter in various parts of the village again so are organising another litter pick on Saturday 12<sup>th</sup> June from 10.30am to 12.30pm, meeting on the village green, all are welcome please come and join us.

### **Planning**

The Planning Inspectorate have dismissed the appeal for permission to demolish the existing bungalow and build two 4-bedroom houses at 18 Wilfreds Wood Close on the grounds of harming the character and appearance of the locality and providing poor living conditions for the occupants of neighbouring properties or the development itself. We note however that a new application has recently been submitted for demolition of the bungalow and the building of a single detached 4-bedroom house with a separate garage/garden store.
