

Think 30 MPH!

As you drive along Northern Woods you will see a black dustbin with **30 MPH** clearly written on both sides. It is the only speed sign on this busy through road. It was painted and put outside their house by Mark and Emma Lister.

Mark has three good reasons for putting it there. Firstly drivers speed along Northern Woods making "calls that can't wait" on their mobiles and ignoring the children going to Juniper Hill School.

Sophie and Thomas, his two eldest, and their friends at Juniper Hill are his second good reason.

His third good reason is that he is a paramedic, or ambulance man, attached to Wycombe Hospital. He picks up children hit by cars and he does it about twice a month. He sees the faces of men and women drivers as the realisation of what they have done sinks in.
